The manager of the electric company set the cost at \$2,700, but the bills already sent in amount to \$2,200. The increased cost is due to the fact that it was necessary to tear away some of the brick partitions in order to have the wires unobscured, according to agreement. This required considerable time and money.

## RANDOLPH.

Plans Being Made to Build a Town House.

The committee, to whom was given authority to investigate the best available place for the town records, has, after much attention and obtaining prices of the different properties and practicable sites, at last fixed upon the Bradish place on Main street, just north of "Hundred Music hall" as being the most desirable. This committee was made up of the selectmen, E. A. Allen, O. J. Marcott and E. H. Hall, with F. G. Sprague from the east part of the town, C. L. Hodges of Randolph Center, W. C. Emerson and A. G. Osgood of this village. This committee thought it wise to secure this property before it was purchased for other purposes, and accordingly has bought the property for \$3,000, the members of the committee and eleven other men signing a note for the payment of that sum. The Bradish lot has a frontage of 121 feet on Main street and extends down the bank to Sargent, Osgood & Boundy's. On this lot are the Bradish house and a cottage in the rear. It is the plan of the committee to have plans drawn for a town house and to build at once a vault so located that it could be a part of the town house when such building should be erected. The front part of the Bradish house, which is now used for storage, can easily be converted into a clerk's office, which will answer the needs of the town building after the plans which the committee presents. The report and proposition will be brought before the March meeting. On account of ill health, the present very efficient clerk, E. A. Hatch, does not care to hold the office longer than March 1. Eugene Briggs, a man of much experience, has been assisting him for the last two months. Several candidates are in the field for the position.
